EDUCATION

DePaul University, Chicago, IL **Expected June 2027**
B.S. Computer Science (Software Development), Minor in Data Science
GPA: 3.7 | Academic Excellence Global DePaul Scholarship | **Certification:** IBM Python for Data Science, 2026
Relevant Coursework: Data Mining & Foundations of Data Science, Data Analytics, Data Visualization, Database Systems, Data Analysis and Regression, Data Structures, Computer Systems, Design and Analysis of Algorithms, Artificial Intelligence, Discrete Math

PROJECTS

MatchIQ | *Python, Pandas, FastAPI, Next.js, TypeScript, Plotly* **2026**
- Built an explainable match-analysis platform on FIFA World Cup 2026 data (104 matches, 4 relational CSV datasets), with a FastAPI backend and Next.js dashboard for momentum charts, event timelines, and team stats.
- Engineered an event-weighted momentum model in pandas over rolling 5-minute windows and a turning-point detector that flags momentum swings, links nearby match events, and removes overlaps; covered with pytest.

WindWalk | *Python, FastAPI, React Native, Mapbox, OpenWeatherMap API, Dijkstra's Algorithm* **1st Place, DemonHacks 2026**
- Built a weather-aware pedestrian navigation app for Chicago winters with a 6-person team at Microsoft-sponsored DemonHacks, generating routes from real-time weather conditions and graph-based pathfinding.
- Developed a FastAPI backend that combines real-time weather data from external REST APIs with Dijkstra-based routing; built a React Native client for interactive route visualization.

Renaro | *TypeScript, PostgreSQL, Redis, WebSockets, Fastify, Drizzle, Stripe Connect*
- Built core backend features for a multi-tenant dispatch SaaS serving taxi and limo fleets, including dispatch, driver workflows, real-time messaging, payments, authentication, and analytics.
- Implemented PostgreSQL row-level security and tenant-isolation controls, plus batch processing and idempotent payment workflows using Redis, pg-boss, and Stripe Connect.

EXPERIENCE

IT & Cyber Security Intern, *Village of Northbrook* **2026 – Present**
- Test and validate Microsoft Copilot Notebooks, evaluating AI-generated outputs, document retrieval and grounding, access controls, and data-sharing workflows across OneDrive and SharePoint.
- Analyze security logs and phishing emails with CrowdStrike Falcon, Mimecast, and Rapid7 to investigate suspicious activity and monitor endpoint vulnerabilities.
- Troubleshoot DNS, IP, Wi-Fi, and device-connectivity issues using Cisco Meraki and Cisco Unified Communications Manager; deploy and patch Windows devices through Microsoft Intune.

Network & Technology Assistant, *DePaul University* **2025 – Present**
- Troubleshoot Windows/macOS endpoints, network connectivity, A/V systems, and Zoom Rooms across 100+ classrooms.
- Image, configure, and maintain enterprise endpoints; prepared 40+ PCs for deployment while documenting device status and escalating complex infrastructure incidents.

Orientation Leader, *DePaul University* **2024 – 2025**
- Guided 200–250 incoming students per session through orientation, providing personalized support during their transition.

TECHNICAL SKILLS

Languages: Python, R, SQL, Java, C, C++, JavaScript, TypeScript
Data Science & Analytics: Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook, Tableau, Excel
Databases: PostgreSQL, MySQL
Software & Cloud: FastAPI, React Native, REST APIs, Git/GitHub, pytest, CI/CD, AWS Lambda, Linux CLI
Tools: Microsoft Office (Word, PowerPoint, Excel), Microsoft Intune, CrowdStrike Falcon, Cisco Meraki

LEADERSHIP & AWARDS

VP of Projects, *MTC DePaul* **Present**
- Lead technical projects for small businesses and community partners, forming project teams and coordinating with MTC chapters at UIUC and other universities.

Treasurer & Host, *Fresh Eyes Radio Show, Radio DePaul* **Present**
- Host a weekly radio show featuring student perspectives from across campus communities.

Vice President & Treasurer, *UMMA DePaul* **2025 – 2026**
- Managed a $35K+ annual budget for large-scale community events, including quarterly dinners with 300+ attendees.

Awards: Outstanding Junior in Leadership Award, 2025–26
